Every package shows its steps in order, as numbered tiles: the product photo, its name, and how long it works or which wash it is. The price and who it is for are at the top of each package.

CHAPTER 1

Your visit

What happens from the moment you arrive, step by step. Every visit starts with a consultation and a close look at your scalp.

IN THIS CHAPTER

Your visit, step by step 4

Our wash lounge at Laguna Tower, The Residences at Greenbelt

Your visit, step by step

This is what happens from the moment you arrive. Steps 3 to 8 are the order of every package; the product amounts are on pages 8 and 9.

1 Welcome and consultation

BEFORE WE START

We ask about your scalp, your routine, recent colour or chemical services, and allergies, including to bee products.

2 Scalp check with a high-resolution camera

BEFORE WE START

The camera shows your actual scalp situation, so you see it too. We recommend the package that fits and confirm the price. Nothing is added without asking.

3 Lotion and scrub

3 + 7 MINUTES

Anti-Dandruff Lotion, massaged in for 3 minutes, then the Scrub: 3 minutes of massage and 4 minutes to work.

4 First wash

AT THE BASIN

Everything is rinsed out very well, then washed with Volupropol™ Gentle Daily Shampoo with Propolis.

5 Scalp Essence L

3–5 MINUTES

Mixed with its diluent and water, massaged into the clean, towel-dried scalp. Very cooling.

6 Second wash

AT THE BASIN

A second wash with Volupropol™ shampoo, then the conditioner. Package 2 adds two scalp gels and the Healing Treatment.

7 Care that stays on

3 MINUTES

Scalp Soothing Serum, or Tonic Lotion Anti-Dandruff in Package 3, massaged in for 3 minutes. It stays on.

8 Blow-dry and home plan

TO FINISH

A blow-dry and style. We tell you what to use at home, and book your next visit if you like.

You stay in control

We confirm the package and the price before we start, and explain each product as we use it. Ask us anything at any step.

For women and men

Every package is for women and men. Wig, topper and hair-system wearers are welcome: we take your piece off and look after your scalp.

CHAPTER 2

Our concept

Every treatment brings together two care lines from our own brands: volu-med™, our professional scalp care, made in Germany by Bergmann, our family house since 1873, and Volupropol™, our propolis care, made in small batches in the Philippines.

Both follow one concept in six steps, each preparing the next: we clean the scalp, open the pores, wake it with gentle stimulation, apply the care, massage it in, and seal it in so the care stays where it works.

The steps stay the same in every package. The care changes with your scalp.

The Volupropol™ line 6

The six steps of every treatment 6

CHAPTER 2 · OUR CONCEPT

Two care lines, one concept

volu-med™ cares for the scalp, Volupropol™ washes, conditions and calms. Every package follows the same six steps.

volu-med™

Our professional care line, made in Germany by Bergmann, our family house since 1873. It cares for the scalp: lotion, scrub, essence, gels and tonic.

Volupropol™

Propolis from local stingless-bee keepers, made in small batches in the Philippines, in biodegradable bottles. Sulfate- and paraben-free, with every ingredient on the label.

OUR CONCEPT IN SIX STEPS

1 Clean the scalp

Anti-Dandruff Lotion and Scrub loosen oil, residue and flakes. Volupropol™ shampoo washes them out.

2 Open the pores

With oil and build-up gone, the pores are free. Scalp Essence L, mixed with its diluent, prepares the scalp for the care.

3 Gentle stimulation

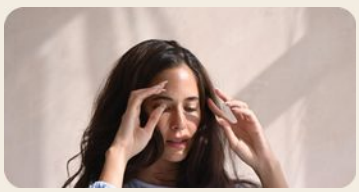
A gentle massage and the cooling essential oils of Scalp Essence L refresh and stimulate the scalp.

4 Apply the care

The care goes onto the clean, prepared scalp: two volu-med™ gels in Package 2, then a serum or tonic.

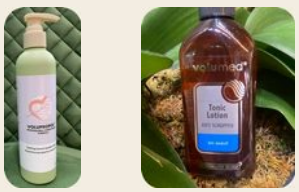
5 Massage it in

Every care product is massaged in, for 3 to 7 minutes, so the scalp can take it in.



6 Seal it in

Volupropol™ Conditioner smooths the hair. The serum or tonic stays on, so scalp and hair keep the care in.



3

CHAPTER 3

The packages

CHAPTER 3 · ON ITS OWN

On its own, and your questions

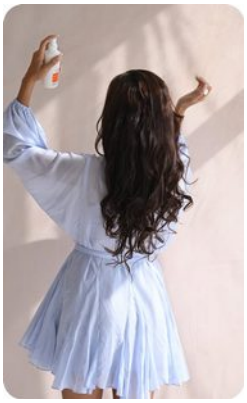
The Healing Treatment is part of Package 2, and you can also book it on its own. Below, the questions clients ask us most.

ON ITS OWN · WOMEN & MEN

volu-med™ Healing Treatment

₱3,500 (short hair) to ₱5,500 (extra long)

A volu-med™ care treatment with argan and chia oil that nourishes, repairs and restores dry, brittle or coloured hair. It is part of Package 2, and you can also book it on its own.



QUESTIONS WE HEAR

Which package is right for me?

We look at your scalp first: Package 1 for build-up, Package 2 for the most complete care, Package 3 for flakes, Package 4 for an oily scalp, Gentle Scalp Care for a sensitive scalp.

Which shampoo do you use?

Volupropol™ Gentle Daily Shampoo with Propolis, for every wash in every package. It is also our recommended shampoo at home.

Do you offer facials?

Yes: the Volupropol™ Clear Skin Facial, on its own or with a scalp package in one visit. See page 11.

Will a treatment make my hair grow back?

We do not promise that. Our packages care for your scalp and the hair you have. Sudden, patchy or heavy hair loss needs a dermatologist first.

I wear a wig. Can I still come?

Yes. We take your wig, topper or hair system off at the salon and look after your scalp.

Can I buy the products?

Yes. The home-care products from your package are available at the salon. See page 17.

Good to know

- ✓ Tell us about allergies, including to bee products: Volupropol™ contains propolis.
- ✓ The scrub and Scalp Essence L feel fresh and cooling. Tell us at once if anything stings.
- ✓ Tonic Lotion Anti-Dandruff combines salicylic acid, which loosens flakes, with piroctone olamine, which targets the yeast linked to dandruff.

One honest fact

Our packages are cosmetic scalp care: they clean, refresh and care for your scalp and the hair you have. They do not treat medical conditions, and we do not promise regrowth.
